PROFESSIONAL PROFILE

As a skilled and creative developer, I bring over two years of experience in creating high-impact web solutions across diverse industries. My expertise includes designing, developing, and testing multiple web applications using various technologies in an Agile environment. I am dedicated to combining my extensive technical skills and React development experience to produce exceptional results.

TECHNICAL SKILLS SUMMARY

- Front-end technologies: **React, HTML5, CSS3, JavaScript, jQuery, TypeScript, HUGO**
- Back-end technologies: **Node.js, Go, Python, PHP, WordPress**
- Database management: **MySQL, PostgreSQL, MongoDB, Redis**
- Libraries and Frameworks: **Express.js, Laravel, Django Rest Framework, Redux, LESS/SASS, Bootstrap/Tailwind CSS/Material UI**
- Design Tools: **Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator**
- Agile methodologies: **Scrum, Kanban (Jira & Trello)**
- Development tools: **NPM, Babel, Postman**
- Operating Systems: **Windows, Linux**
- Cloud computing: **Google Cloud Platform, Digital Ocean**
- Server Management: **Nginx, Docker**
- Version control systems: **Git**
- Continuous integration and delivery: **Jenkins**
- Testing frameworks: **Jest**
- Web performance optimization: **Webpack, Gulp, Grunt**
- API integration: **REST**
- Cross-platform development: **React Native**
- Accessibility standards and guidelines: **WCAG, ARIA**
- Microservices architecture: **Kubernetes**
- WebSocket and real-time communication: **Socket.io, WebRTC**
- Streaming platforms: **Kafka**
- Analytics and monitoring tools: **Google Analytics**
- Scripting: **Shell Scripting (SSH)**

WORK EXPERIENCE

FULL STACK DEVELOPER | BCI INNOVATION LABS
LONDON, ONTARIO
MAR 2021 – CURRENT

FRONTEND DEVELOPER | BCI INNOVATION LABS
LONDON, ONTARIO
FEB 2020 – MAR 2021

JUNIOR FRONTEND DEVELOPER | BCI INNOVATION LABS
LONDON, ONTARIO
SEP 2019 – FEB 2020

EDUCATION

WEB DEVELOPMENT & INTERNET APPLICATIONS
CERTIFICATE, CONESTOGA COLLEGE (JANUARY 2022 – AUGUST 2022)

SOFTWARE DEVELOPMENT AND TECHNOLOGY ENTREPRENEURSHIP
DIPLOMA, LONDON LANGUAGE INSTITUTE (SEPTEMBER 2019 – AUGUST 2021)

ELECTRICAL AND ELECTRONICS ENGINEERING
B.ENG, MAHATMA GANDHI UNIVERSITY (JULY 2013 - NOVEMBER 2017)

SIDE PROJECTS

PRODUCT – TRAVEL APP

Travel app was made as my final college project, demonstrates my skills in PHP, Laravel, API integration, and email automation, utilizing an open-source API for travel booking and providing users with destination information and confirmation emails..

PRODUCT - PILLSHARE

Pillshare is a web app that monitors human vitals in real-time by pulling data from wearable devices. Developed with React.js, Redux, Material UI, and Go, the app features a dashboard that consolidates vital information. The project demonstrates my skills in front-end development, data integration, and real-time monitoring.

PRODUCT – ANYART

AnyArt is a multi-vendor platform for artists to sell or purchase artwork. Created on WordPress for my college final project, it enables artists to showcase their work and browse other creators' art. The project showcases my skills in e-commerce, user experience design, and digital product development.

COMMUNITY INVOLVEMENT

Developer meetups, Volleyball, and exploring the outdoors. I volunteered at a mission serving food to the needy.
